TRANSMITTAL OF REQUEST FOR CERTIFICATE OF CORRECTION AND REQUEST FOR CORRECTED PATENT UNDER 37 CFR § 1.322 (B)

Applicants submitted formal drawings in the above-referenced application on December 19, 2001. These were acknowledged as received by the Office and entered into the file on January 23, 2002 (see attached printout of relevant page of PAIR, at asterisk on page 2). After receipt of a Notice of Allowance, Applicants requested that those formal drawings be used in the printing of the issued patent, both in a telephone conversation between the undersigned and Examiner Gucker on November 30, 2004, and in the issue fee transmittal (copy attached) submitted on the same day. Despite these measures, the patent issued with the informal drawings filed with the original application on May 15, 2001, instead of with the formal drawings.

Applicants note that due to the formatting constraints inherent in certificates of correction, the formal drawings, when reproduced on the attached Certificates, are necessarily smaller and less clear than the full-size formal drawings submitted on December 19, 2001. In accord with 37 CFR § 1.322 (b), Applicants submit that the nature of the mistake on the part of the Office is such that a certificate of correction is inappropriate in form, and request that the

RESPONSE TO NOTICE OF ALLOWANCE

In response to the Notice of Allowance mailed August 31, 2004, enclosed are a completed issue fee transmittal form PTOL-85b, and a check for \$1400 for the required fees for a large entity, including patent copies.

Please note that the application is not entitled to small entity status. All previous fees have been paid at the price level for a large entity, except for the Response to Notification of Missing Requirements fee paid August 21, 2001, which was inadvertently paid as a small entity. A second check for \$65, representing the deficiency for that August 21, 2001 response, is also enclosed.

In addition, Applicants request that the formal drawings submitted on December 19, 2001 (dated January 23, 2002 in the PTO system) be included in the issued patent, rather than the drawings submitted on May 15, 2001.
